

BERNINA Quilt Frame

The BERNINA Quilt Frame will help you manage your most expansive projects with its expandable size that fits quilts of any size, from crib to king!

Distinguishing Features

Twist n' Lock Rails

The unique design of the Twist n' Lock Rail system provides a fast and easy way to extend your frame to king size (120"). This is a great, time-saving rail coupling system that is tool-free and requires no additional hardware!

Smooth, Precise Tension Control

Advancing your fabric as you complete your quilt is simple using the highly-accurate tension control ratchets. Locking and unlocking the tension on your quilt is as simple as the twist of a knob.

Cloth Leaders with Grid Lines

The BERNINA Quilt Frame includes the new Start-Right Cloth Leaders—pre-printed, quality, canvas leaders for easy quilt installation onto your frame.

Quality Bearings for Smooth Rolling Excellent Control

Eight large 1½" bearings come with the carriage system, providing you with all the smoothness and accurate control of a professional system. Their angled position on the track locks the carriage down, creating a completely wobble-free movement.

Ratcheting Take-up Rail

As you progress through your quilt your take-up rail raises with the simple push of a lever.

Sleek Look

No other frame offers the sleek design of the BERNINA Quilt Frame.

Additional Features

Height Adjustable Legs—A standard feature that offers 6 full inches of adjustment to accommodate any quilter.

Work from Both Sides—Handles extend on both sides of the frame so you can work from the needle-side, or the back of the frame.

Sets Up in Two Sizes—60" crib and 120" king, both sizes included.

Utility Shelf—The perfect place to keep fabric and notions near you, but out of the way.

Extended Carriage—13-18" of travel distance to make the most of your machine's free-arm depth.

Dual track—Front and back dual track improves stability for increased stitch quality.

Ask your BERNINA Dealer about additional accessories for the BERNINA Quilt Frame including QuiltMotion Designed for BERNINA. With QuiltMotion and the BERNINA Quilt Frame, you can enjoy the benefits of a professional automated system, finishing your quilt projects precisely as you envision them.
